Hi Laurie,

Thanks for following up regarding 98th Street. After checking with LAWA, distribution of the layouts at this stage is not appropriate because it is a draft work product under consideration for the upcoming draft environmental document. Per our discussion at the last meeting, my understanding is that next step would be to hold another meeting with you, LAWA and others as appropriate to continue a more in depth discussion about the potential roadway improvements. Also, the traffic information is still under development as I mentioned at the last meeting.

We would be happy to coordinate with you to schedule the next meeting so we can continue this discussion and hopefully find a mutually acceptable solutions.

Hello Tony,

I am scheduling a meeting with our stakeholders to discuss LAWA's plan to open 98th Street from the 405 Fwy. through to Sepulveda.

It is my understanding that you are the decision maker with respect to access to the plan that you showed at our meeting. We would like to show the plan at that meeting and am requesting that you send it to me along with the key points explaining why it is necessary for 98th Street to be open, estimated trips, restricted delivery hours, etc.

Thank you for your assistance.
